CONTENTS VOLUME 55 NUMBER 1 MAY 1, 2001

Review Articles

Integrated brain activity in medial temporal and prefrontal areas predicts subsequent memory performance: Human declarative memory formation at the system level.
Fernández, G., and I. Tendolkar 1

An approach to the complexity of the brain.
Székely, G. 11

Articles

Effect of adrenomedullin receptor and calcitonin gene-related peptide receptor antagonists on centrally mediated adrenomedullin renal action.
Diaz, E., and A. Israel 29

Nitric oxide may underlie learned fear in the elevated T-maze.
Calixto, A. V., N. Vandresen, G. de Nucci, H. Moreno Jr., and M. S. Faria 37

Role of wake inducing brain stem area on rapid eye movement sleep regulation in freely moving cats.
Thankachan, S., F. Islam, and B. N. Mallick 43

Effects of intracerebroventricularly administered chimeric peptide of Metenkephalin and FMRFa—[D-Ala^2]YFa—on antinociception and its modulation in mice.
Gupta, S., S. Pasha, Y. K. Gupta, and D. K. Bhardwaj 51

Morphine tolerance in mice is independent of polymorphisms in opioid receptor sequences.
Gant, T. M., P. Riba, and N. M. Lee 59

Elevation of guinea pig brain preprodynorphin mRNA expression and hypothalamic-pituitary-adrenal axis activity by "binge" pattern cocaine administration.
Yuferov, V., Y. Zhou, K. S. LaForge, R. Spangler, A. Ho, and M. J. Kreek 65

Lesion size and amphetamine hyperlocomotion after neonatal ventral hippocampal lesions: More is less.
Swerdlow, N. R., N. Halim, F. M. Hanlon, A. Platten, and P. P. Auerbach 71

A comparative neuroethological study of limbic seizures induced by *Parawixia bistriata* venom and kainic acid injections in rats.
Rodrigues, M. C. A., R. Guizzo, W. F. dos Santos, and N. G. Cairasco 79

Prostaglandins play an important role in diurnal changes of tuberoinfundibular dopaminergic neuronal activity and prolactin secretion in ovariectomized, estrogen-treated rats.
Chu, Y.-C., M.-Y. Tsou, and J.-T. Pan 87

Expression of Fos in the piriform cortex after acquisition of olfactory learning: An immunohistochemical study in the rat.
Datiche, F., F. Roullet, and M. Cattarelli 95

Caffeine reverses the memory disruption induced by intra-nigral MPTP-injection in rats.
Gevaerd, M. S., R. N. Takahashi, R. Silveira, and C. Da Cunha 101

Continuous, bilateral Achilles' tendon vibration is not detrimental to human walk.
Courtine, G., T. Pozzo, B. Lucas, and M. Schieppati 107

Microinjection of arginine vasopressin into the central nucleus of amygdala suppressed nociceptive jaw opening reflex in freely moving rats.
Ahn, D. K., K. H. Kim, J. S. Ju, S. Kwon, and J. S. Park 117

CONTENTS VOLUME 55 NUMBER 2 MAY 15, 2001

Special Issue: Metals and the Brain

Foreword

Metals and the brain: From neurochemistry to neurodegeneration.
Zatta, P. 123

Review Articles

Mechanisms by which metals promote events connected to neurodegenerative diseases.
Campbell, A., M. A. Smith, L. M. Sayre, S. C. Bondy, and G. Perry 125

Roles of the metallothionein family of proteins in the central nervous system.
Hidalgo, J., M. Aschner, P. Zatta, and M. Vašák 133

Zinc-bound metallothioneins as potential biological markers of ageing.
Mocchegiani, E., R. Giacconi, C. Cipriano, M. Muzzioli, P. Fattoretti, C. Bertoni-Freddari, G. Isani, P. Zambenedetti, and P. Zatta 147

Iron and neurodegenerative disorders.
Thompson, K. J., S. Shoham, and J. R. Connor 155

Copper and prion disease.
Brown, D. R. 165

Copper in disorders with neurological symptoms: Alzheimer's, Menkes, and Wilson diseases.
Strausak, D., J. F. B. Mercer, H. H. Dieter, W. Stremmel, and G. Multhaup 175

Aluminium as a risk factor in Alzheimer's disease, with emphasis on drinking water.
Flaten, T. P. 187

Neurotoxicity and molecular effects of methylmercury.
Castoldi, A. F., T. Coccini, S. Ceccatelli, and L. Manzo 197

Articles

Effects of $AlCl_3$ on toad skin, human erythrocytes, and model cell membranes.
Suwalsky, M., B. Ungerer, F. Villena, B. Norris, H. Cárdenas, and P. Zatta 205

Effects of aluminum on the neurotoxicity of primary cultured neurons and on the aggregation of β-amyloid protein.
Kawahara, M., M. Kato, and Y. Kuroda 211

The response of neurones and glial cells to elevated copper.
Watt, N. T., and N. M. Hooper 219

Manganese toxicity is associated with mitochondrial dysfunction and DNA fragmentation in rat primary striatal neurons.
Malecki, E. A. 225

Aluminium incorporation into the brain of rat fetuses and sucklings.
Yumoto, S., H. Nagai, H. Matsuzaki, H. Matsumura, W. Tada, E. Nagatsuma, and K. Kobayashi 229

Prenatal exposure to methyl mercury in rats: Focus on changes in kynurenine pathway.
Zanoli, P., G. Cannazza, and M. Baraldi 235

Complexities in the neurotoxic actions of 6-hydroxydopamine in relation to the cytoprotective properties of taurine.
Hayes, J., K. F. Tipton, L. Bianchi, and L. D. Corte 239

Enhanced brain regional lipid peroxidation in developing rats exposed to low level lead acetate.
Villeda-Hernández, J., R. Barroso-Moguel, M. Méndez-Armenta, C. Nava-Ruíz, R. Huerta-Romero, and C. Ríos 247

Immunostaining of calmodulin and aluminium in Alzheimer's disease-affected brains.
Solomon, B., R. Koppel, and J. Jossiphov 253

Aluminium toxicity in the rat brain: Histochemical and immunocytochemical evidence.
Platt, B., G. Fiddler, G. Riedel, and Z. Henderson 257

Neurotoxic effect of lead at low concentrations.
Mameli, O., M. A. Caria, F. Melis, A. Solinas, C. Tavera, A. Ibba, M. Tocco, C. Flore, and F. Sanna Randaccio 269

Participation of manganese-superoxide dismutase in the neuroprotection exerted by copper sulfate against 1-methyl 4-phenylpyridinium neurotoxicity.
Alcaraz-Zubeldia, M., S. Montes, and C. Ríos 277

Effect of temperature on postanoxic, potentially neurotoxic changes of plasma pH and free iron level in newborn rats.
Caputa, M., J. Rogalska, and A. Nowakowska 281

Deprivation and denervation differentially affect zinc-containing circuitries in the barrel cortex of mice.
Czupryn, A., and J. Skangiel-Kramska 287

Antidepressant-like properties of zinc in rodent forced swim test.
Kroczka, B., P. Branski, A. Palucha, A. Pilc, and G. Nowak 297

The effects of sodium arsenite exposure on behavioral parameters in the rat.
Rodríguez, V. M., L. Carrizales, M. E. Jiménez-Capdeville, L. Dufour, and M. Giordano 301

The distribution patterns of trace elements in the brain and erythrocytes in a rat experimental model of iodine deficiency.
Liu, N. Q., Q. Xu, X. L. Hou, P. S. Liu, Z. F. Chai, L. Zhu, Z. Y. Zhao, Z. H. Wang, and Y. F. Li 309

Immune-endocrine status and coeliac disease in children with Down's syndrome: Relationships with zinc and cognitive efficiency.
Licastro, F., R. Antonietta Mariani, G. Faldella, E. Carpenè, G. Guidicini, A. Rangoni, T. Grilli, and G. Bazzocchi 313

Serum concentrations of some metals and steroids in patients with chronic fatigue syndrome with reference to neurological and cognitive abnormalities.
van Rensburg, S. J., F. C. V. Potocnik, T. Kiss, F. Hugo, P. van Zijl, E. Mansvelt, M. E. Carstens, P. Theodorou, P. R. Hurly, R. A. Emsley, and J. J. F. Taljaard 319

CONTENTS VOLUME 55 NUMBER 3 JUNE 2001

Articles

Behavioral and biochemical effects of glutathione depletion in the rat brain.
Cruz-Aguado, R., W. Almaguer-Melian, C. M. Díaz, L. Lorigados, and J. Bergado 327

Nitric oxide inhibits GABA-evoked current in dorsal root ganglion neuron via PKG-dependent pathway.
Bie, B.-H., and Z.-Q. Zhao 335

Transplacental transfer of the opioid growth factor, [Met^5]-enkephalin, in rats.
Zagon, I. S., J. D. Wylie, W. J. Hurst, and P. J. McLaughlin 341

Alterations of AP-1 and CREB protein DNA binding in rat supraoptic and paraventricular nuclei by acute and repeated hyperosmotic stress.
McCabe, J. T., and A. S. Burrell 347

Lateral parabrachial nucleus lesions in the rat: Neophobia and conditioned taste aversion.
Reilly, S., and R. Trifunovic 359

Regional distribution of Hsp70 in the CNS of young and old food-restricted rats following hyperthermia.
Walters, T. J., K. L. Ryan, and P. A. Mason 367

The NF-κB inhibitor diethyldithiocarbamate (DDTC) increases brain cell death in a transient middle cerebral artery occlusion model of ischemia.
Hill, W. D., D. C. Hess, J. E. Carroll, C. G. Wakade, E. F. Howard, Q. Chen, C. Cheng, A. Martin-Studdard, J. L. Waller, and R. A. Beswick 375

Comparison of anticonvulsive and acute neuroprotective activity of three 2,3-benzodiazepine compounds, GYKI 52466, GYKI 53405, and GYKI 53655.
Szabados, T., G. Gigler, I. Gacsályi, I. Gyertyán, and G. Lévay 387

An experimental study on the course of trans-synaptic propagation of neural activity and plasticity in the hippocampus in kainate-induced epilepsy.
Sato, K., and K. Abe 393

Differential distribution of Fos expression within the male rat preoptic area and hypothalamus in response to physical vs. psychological stress.
Briski, K., and E. Gillen 401

Optic nerve regeneration within artificial Schwann cell graft in the adult rat.
Negishi, H., M. Dezawa, T. Oshitari, and E. Adachi-Usami 409

Changes in calcium currents and GABAergic spontaneous activity in cultured rat hippocampal neurons after a neurotropic influenza A virus infection.
Brask, J., B. Owe-Larsson, R. H. Hill, and K. Kristensson 421

Serotonergic innervation of the primate claustrum.
Baizer, J. S. 431

Age-associated changes in the serotonergic system in rat superior colliculus and pretectum.
Parsons, M. J., R. M. Benca, M. S. Brownfield, and M. Behan 435

Imiquimod-elicited emesis is mediated by the area postrema, but not by direct neuronal activation.
Strominger, N. L., R. Brady, G. Gullikson, and D. O. Carpenter 445

Articles

Participation of endogenous nitric oxide in the effect of hypoxia *in vitro* on neuro-effector transmission in guinea-pig ileum.
Mizhorkova, Z., M. Batova, and E. A. Milusheva 453

Noradrenaline synthesis, release and vesicular transport in the rat brain following subarachnoid haemorrhage.
Lambert, E., J. Hastings, and G. Lambert 459

Nociceptin/orphanin FQ contributes to hypoxic/ischemic impairment of hypercapnic cerebrovasodilation.
Jagolino, A., and W. M. Armstead 465

Effect of nitric oxide donors on extracellular ATP, ADP, and AMP catabolism in rat hippocampal synaptosomes.
Kirchner, S. M., C. D. Bonan, A. M. O. Battastini, and J. J. F. Sarkis 469

Antioxidants prevent depletion of $[Mg^{2+}]_i$ induced by alcohol in cultured canine cerebral vascular smooth muscle cells: Possible relationship to alcohol-induced stroke.
Li, W., T. Zheng, B. T. Altura, and B. M. Altura 475

Distribution and depression of the $GABA_B$ receptor in the spinal dorsal horn of adult rat.
Yang, K., D. Wang, and Y.-Q. Li 479

Perinatal exposure to polychlorinated biphenyls Aroclor 1016 or 1254 did not alter brain catecholamines nor delayed alternation performance in Long-Evans rats.
Zahalka, E. A., D. H. Ellis, E. S. Goldey, M. E. Stanton, and C. Lau 487

Morphine pretreatment increases opioid inhibitory effects on maternal behavior.
Miranda-Paiva, C. M., A. G. Nasello, A. J. Yin, and L. F. Felicio 501

SoRI 9409, a non-peptide opioid μ receptor agonist/δ receptor antagonist, fails to stimulate [^{35}S]-GTP-γ-S binding at cloned opioid receptors.
Xu, H., Y.-F. Lu, K. C. Rice, S. Ananthan, and R. B. Rothman 507

Modulation of ethanol-induced motor incoordination by mouse striatal A_1 adenosinergic receptor.
Dar, M. S. 513

Substance P and neurokinin A mediate sensory synaptic transmission in young rat dorsal horn neurons.
Li, P., and M. Zhuo 521

Cellular and molecular aspects of striatal development.
Jain, M., R. J. E. Armstrong, R. A. Barker, and A. E. Rosser 533

Differential effects of unilateral striatal and nigrostriatal lesions on grip strength, skilled paw reaching and drug-induced rotation in the rat.
Jeyasingham, R. A., A. L. Baird, A. Meldrum, and S. B. Dunnett 541

Visual language and handwriting movement: Functional magnetic resonance imaging at 3 tesla during generation of ideographic characters.
Matsuo, K., C. Kato, S. Tanaka, T. Sugio, M. Matsuzawa, T. Inui, T. Moriya, G. H. Glover, and T. Nakai 549

Influence of pyridoxal 5′-phosphate alone and in combination with vigabatrin on brain GABA measured by 1H-NMR-spectroscopy.
Mueller, S. G., O. M. Weber, P. Boesiger, and H. G. Wieser 555

Technical Report

Tissue printing of astroglial interlaminar processes from human and non-human primate cerebral cortex.
Colombo, J. A., M. I. Napp, A. Yáñez, and H. Reisin 561

CONTENTS VOLUME 55 NUMBER 5 JULY 15, 2001

Special Issue: Neuropathology of Severe Mental Illness: Studies from the Stanley Foundation Neuropathology Consortium

Foreword
Knable, M. B., and M. J. Webster 567

Articles

Synaptic pathology in the anterior cingulate cortex in schizophrenia and mood disorders. A review and a Western blot study of synaptophysin, GAP-43 and the complexins.
Eastwood, S. L., and P. J. Harrison 569

Neurochemical correlates of cortical GABAergic deficits in schizophrenia: Selective losses of calcium binding protein immunoreactivity. (Review)
Reynolds, G. P., Z. J. Zhang, and C. L. Beasley 579

Glial cell abnormalities in major psychiatric disorders: The evidence and implications. (Review)
Cotter, D. R., C. M. Pariante, and I. P. Everall 585

Electron microscopy of oligodendroglia in severe mental illness.
Uranova, N., D. Orlovskaya, O. Vikhreva, I. Zimina, N. Kolomeets, V. Vostrikov, and V. Rachmanova 597

A quantitative immunohistochemical study of astrocytes in the entorhinal cortex in schizophrenia, bipolar disorder and major depression: Absence of significant astrocytosis.
Damadzic, R., L. B. Bigelow, L. S. Krimer, D. A. Goldenson, R. C. Saunders, J. E. Kleinman, and M. M. Herman 611

Prodynorphin and κ opioid receptor mRNA expression in the cingulate and prefrontal cortices of subjects diagnosed with schizophrenia or affective disorders.
Peckys, D., and Y. L. Hurd 619

Abnormalities in the cAMP signaling pathway in *post-mortem* brain tissue from the Stanley Neuropathology Consortium. (Review)
Stewart, R. J., B. Chen, D. Dowlatshahi, G. M. MacQueen, and L. T. Young 625

Striatal ionotropic glutamate receptor expression in schizophrenia, bipolar disorder, and major depressive disorder.
Meador-Woodruff, J. H., A. J. Hogg, Jr., and R. E. Smith 631

Application of cDNA microarrays to examine gene expression differences in schizophrenia.
Vawter, M. P., T. Barrett, C. Cheadle, B. P. Sokolov, W. H. Wood III, D. M. Donovan, M. Webster, W. J. Freed, and K. G. Becker 641

Multivariate analysis of prefrontal cortical data from the Stanley Foundation Neuropathology Consortium.
Knable, M. B., E. F. Torrey, M. J. Webster, and J. J. Bartko 651

Special Section: Evolution of the Nervous System

Guest Editor: Joel C. Glover

Foreword
Glover, J. C. 661

Changing views of brain evolution.
Northcutt, R. G. 663

Common developmental genetic mechanisms for patterning invertebrate and vertebrate brains.
Kammermeier, L., and H. Reichert 675

Correlated patterns of neuron differentiation and *Hox* gene expression in the hindbrain: A comparative analysis.
Glover, J. C. 683

Brain segmentation and forebrain development in amniotes.
Puelles, L. 695

Evolution and development of the vertebrate ear.
Fritzsch, B., and K. W. Beisel 711

Evolution of vertebrate neuropeptides.
Holmgren, S., and J. Jensen 723

Articles

Alterations of medial preoptic area neurons following pregnancy and pregnancy-like steroidal treatment in the rat.
Keyser-Marcus, L., G. Stafisso-Sandoz, K. Gerecke, A. Jasnow, L. Nightingale, K. G. Lambert, J. Gatewood, and C. H. Kinsley 737

Effects of acute and chronic fluoxetine treatments on restraint stress-induced Fos expression.
Lino-de-Oliveira, C., A. J. Sales, E. A. Del Bel, M. C. Leite Silveira, and F. Silveira Guimarães 747

The anxiolytic effect of acute ethanol or diazepam exposure is unaltered in μ-opioid receptor knockout mice.
LaBuda, C. J., and P. N. Fuchs 755

Rate-independent inhibition by norepinephrine of 5-HT release from the somadendritic region of serotonergic neurons.
Kalsner, S., and S. A. Abdali 761

Effect of neonatal treatment with monosodium glutamate on dopaminergic and L-DOPA-ergic neurons of the medial basal hypothalamus and on prolactin and MSH secretion of rats.
Bodnár, I., P. Göõz, H. Okamura, B. E. Tóth, M. Vecsernyés, B. Halász, and G. M. Nagy 767
